

BatchMaster ERP for Sea Foods

Bait the higher profit margins

The 'BatchMaster ERP for Seafood' is the result of continuous enhancement of over 30 years with detailed knowledge of the seafood industry's best practices. Right from- storage, thawing, eviscerating, washing, pre-cooking, canning, sterilization, storage, labelling, to loading & shipment- BatchMaster ERP supports all. Designed with the aim to help seafood manufacturers maximize every aspect of their processing and meet deliveries in timely fashion, the product proves to be the best solution for handling:

- Production, inventory, sales, purchase, formula, quality assurance, costing, and compliance.
- By-products that can be used in producing other revenue generating products like biochemicals, pharmaceuticals, color additives, gelatin, oil, etc.

BatchMaster ERP Sea Food
